The screenshot shows a web browser window with the URL `localhost/127.0.0.1/stf/` and a sub-page `localhost/student/sponsor/login.php`. The browser's address bar shows several tabs: "Announcements", "Announcements", "Messenger", and "YouTube". The main content area of the browser displays a sign-in form. At the top right of the form is the Polytechnic University of the Philippines logo. Below the logo, the text "Please sign in" is centered. Underneath this text are two input fields: "Email address" and "Password". To the right of the "Password" field is a checkbox labeled "Remember me". Below the input fields is a large blue button labeled "Sign in". At the bottom of the form, there is a copyright notice: "© 2018-2019 Scholarship and Financial Assistance Services". Below the copyright notice are two links: "Privacy" and "Terms Support". The browser's status bar at the bottom shows the time as "4:26 AM" and the date as "8/24/2018".

### 3.3. DEVELOPMENT METHODOLOGY

#### 3.3.1. Process Model

*Figure 46: 3.3.1- Process Model (Spiral Model)*

**Spiral Process Model** represents the processes with a spiral image than in the sequence of activities. This is designed to produce well features of a system.

Every loop of the spiral represents phases that are concerned with the feasibility of the system. Its aspiration is to define the objectives and risks that may fall the system. Detailed analysis must be conducted within the progress of system. Project must be reviewed and carefully planned to continue with the further loop of the process. This will help the developers to take care of any risk problems that can arise between the times they are developing the project.
